SUMMARY

Full-stack engineer with **20+ years shipping production software**, the last three focused on **AI integration and vertical SaaS for regulated industries** — fiscal/tax, legal, healthcare, and government. Zero-to-MVP fast, then scale: multi-tenant auth, RAG pipelines, document AI, EMR/FHIR integrations, and the Mexican fiscal stack (SAT, CFDI 4.0, FIEL). Comfortable as solo contributor, tech lead, or fractional CTO.
